

## Quality Without Compromise

Grand Teton Brewing Company is committed to crafting only the highest quality ales and lagers. We take measures at every point in our brewing, packaging and shipping process to ensure that we deliver only the best beers to you. Our full-time, dedicated Quality Manager performs

multiple tests of every batch at every stage and conducts daily tastings of our finished brews to guarantee that only the best possible beers make the journey from our brewery to your glass.

## Grand Teton Brewing Company

Grand Teton Brewing Company was founded in 1988 as Otto Brothers Brewing, the first modern brewery in the state of Wyoming. The company was built on the belief that great tasting, authentic handcrafted beer could find a niche in the modern market place. The original brewery in Wilson, WY quickly became a local favorite. Today, Grand Teton Brewing Company is in the Brewer's Association "Top 100 Craft Breweries in North America." At our new location in Victor, Idaho, Grand Teton Brewing Company beers are crafted from only the best ingredients, including locally grown grains, Idaho hops and pure Teton Mountain spring water.

We believe that Teton Valley, Idaho is the best place on earth to craft beer. Our water is glacial run-off, filtered over 300-500 years by Teton Mountain granite and limestone before it surfaces at a spring a half mile from the brewery. Teton Valley grows the world's best malting barley, and Southern Idaho includes some of the finest hop farms in the world.

The logo for Grand Teton Brewing Company is circular with a blue and white color scheme. It features a central image of a snow-capped mountain peak. The text "A TASTE OF THE TETONS" is written in a white arc at the top. "Grand Teton Brewing Co." is written in white in the center. "JACKSON HOLE'S ORIGINAL" is written in a white arc at the bottom, and "SINCE 1988" is written in a white arc on the right. Two golden wheat stalks are positioned on either side of the central mountain image.
